ELEMENTARY
ALGEBRA

HAROLD R. JACOBS

in the beginning...

Ask
Dr. Callahan

REVISED EDITION

A student-friendly treatment of algebra 1 in this basic introduction to the world of higher mathematics!

This course is designed to study the properties of linear and nonlinear functions, rational equations, and applications of algebraic skills like operations, real numbers, and polynomials.

- The video sections are based on Harold Jacob's *Elementary Algebra* textbook and guide the student using lessons, examples, and optional hands-on learning activities.
- The course is taught in a light-hearted style, focusing on helping the student understand the concepts of algebra without a ton of math-speak.
- This course comes with free Homework Help email support from AskDrCallahan, making this course an ideal solution for parents and students alike looking to learn algebra while preparing for the ACT, SAT, and future math courses.

Students who complete this course should take geometry next.

Cassidy Cash is a founder, owner, and teacher at AskDrCallahan, LLC. For the past 13 years, Cassidy has served as a popular math tutor with public, private, classical, and homeschool families. She has taught and tutored Algebra, Geometry, Algebra II with Trig, Calculus, Physics, Chemistry, and Biology. She lives in Birmingham, AL with her husband, Tim, and two boys.
