

PreCalculus
with Trigonometry

Math·U·See

Math-U-See is a complete and comprehensive K-12 curriculum. Primer, Alpha, Beta, Gamma, Delta, Epsilon, and Zeta make up general math. Pre-Algebra, Algebra 1, Geometry, Algebra 2, PreCalculus with Trigonometry, and Calculus comprise secondary math. Stewardship is a Biblically-based consumer math course.

Math-U-See is based on the premise that we study math to apply math in everyday situations. Our goal is to assist students in becoming confident problem solvers who enjoy math. It is our hope that students will learn facts and formulas and be able to use this knowledge in solving word problems and real life applications.

There are three key components in the Math-U-See program:

1. The DVD and instruction manual for each level provide the training for teacher and student.
2. The blocks, inserts, and fraction overlays are used through Algebra 1 to enable the students to see and understand the concepts of math.
3. The student text provides lots of practice, review, and real life applications so each topic can be internalized and mastered.

Contact Math-U-See via Sales@MathUSee.com or by phone at 888-854-MATH(6284).

Our goal at Math-U-See is to encourage students to be confident problem solvers who understand and enjoy math. The reason we study math is so we can apply math in everyday situations. We do want students to learn their math facts, rules, and formulas, but we also want them to be able to use this knowledge in everyday life.
